

Wave 200 XL Product Specifications

Ideal for pools	Up to 33 m' in length
Cycle time	1, 2, 3, 4, 5, 6, 7, 8 h
Cable	35 m
Weight	24 kg
Suction rate	34 m ³ /3h
Linear speed	12.5 m/min
Filtration	Spiral 2 layer system
Brushes	Dual direction active brushes rotates 1.5 faster than the robot
MMI	Control panel for programming and technician support
Auto direct navigation system	Multiple scanning patterns
Warranty	24 months

About Maytronics

Nobody knows robotic pool cleaners like Maytronics – the company behind industry-leading Dolphin robots. For more than 30 years, we have been developing robotic cleaning solutions for the world's swimming pools.

Starting in 1983, we pioneered automated electronic pool cleaning technology. Today, Maytronics remains the market leader, continually setting new standards for technological innovation, design and reliability. In everything we do, we strive to make pool owners' and users' lives easier and more enjoyable.

Our goal: to enable an exceptional experience of a pure, clean, safe, and relaxing pool.

WAVE – THE TRUSTED NAME FOR COMMERCIAL POOL CLEANERS

Get the best value for your pool cleaning budget while gaining uncompromising professional cleaning performance, with the Dolphin Wave 200 XL, from Maytronics. This revolutionary commercial pool cleaner delivers long-lasting reliability and the best wall-to-wall cleaning in its class. Easy-to-use and easy-to-clean, it efficiently and effectively cleans any mid-sized commercial pool, regardless of shape or type, and provides a single-robot solution for multiple pools in your facility.

With fast and efficient operation, you can keep your pools open for business with minimum cleaning downtime.

Wave 200 XL key features and advantages

Outstanding results:

- **Line-by-line cleaning process-state-of-the-art** – programmable tracking systematically cleans the pool floor one path at a time.
- **AutoDirect** – intelligent, self-learning technology and multiple scanning modes delivers systematic, independent and fast cleaning of any mid-sized commercial pool of any shape or type.
- **Multi Pattern Scanning** – advanced navigation system and powerful technology ensure complete pool coverage.
- **Highly efficient clog-free filtration with spiral two layer system** - simultaneously separates and filters rough, fine and ultra-fine dirt.
 - Spiral flow system spins the water with large debris off the coarse filter net.
 - The coarse filter mesh retains the large particles allowing the cartridge filter to run longer.
 - The ultra-fine debris is caught in a large pleated cartridge filter.
 - Top access, with snap-in/out separation of the layers, for easy and convenient maintenance and cleaning.
- **Enhanced Active Brushing system with Spiral Brush** – advanced, dual-direction brush system delivers superior cleaning.
 - Brushes spin at 1.5x the speed of the robot to efficiently sweep dirt from the front and sides.
 - Unique Spiral Brush sweeps dirt from both sides of the robot towards the center of the vacuum.
 - Four side brushes clean the corners between the pool floor and walls.
- **Bypass Mechanism** – automatically recognizes and moves around obstacles in the pool, reducing need for operator intervention.

Easy to use and maintain

- **Easy, everyday operation and maintenance** with interactive MMI for intuitive programming and diagnosis of pool cleaner, including:
 - Automatic pool entry and exit using "Drive to pool" and "Drive home" features.
 - Choice of programs and multiple operation modes displayed on a user-friendly LCD screen.
 - Remote control for manual manoeuvring to clean hard-to-reach pool corners.
 - Full filter bag indicator.
 - Operation delay feature.
- **Multipurpose Caddy with Auto Cable Release** - transports the robot and automatically releases just enough cable to reach the far end of the pool, preventing kinks and tangles, simply crank the reel to neatly rewind the cable.

Cost-effective, long-lasting value

- **Multi-pool cleaning** – setup of up to four different scanning modes and remote control IDs provides optimized cleaning of multiple different pools with a single robot.
- **Save precious time and minimize interruption with easy access and simple repair** – technician mode allows diagnosis and service at poolside via a built-in interface with USB connection.

Professional support and service

- Full warranty on all parts for 24 months or 3000 hours, whichever comes first. Maytronics also offers extended warranty programs. Please contact your dealer for details.
- Onsite training program provided by Maytronics product experts.
